North-eastern states can be organic food producers :

Food regulator FSSAI will soon notify a new standards for food supplements as part of its efforts to ensure safe and nutritious food to the people.

Last year, the Food Safety and Standards Authority of India (FSSAI) had come out with draft quality and safety norms to regulate food or health supplements, nutraceuticals, functional and dietary foods.

"The new standards of food supplements are in the final stage of notification and will be shortly notified post government approval," FSSAI
